

The Department of Surgery, Division of Vascular Surgery at Toronto General Hospital and University of Toronto is inviting applications for the position of a full time staff academic vascular surgeon.

The effective date of this appointment is July 1, 2018.

The Division of Vascular Surgery seeks a full-time academic vascular surgeon to perform the full breadth of vascular surgical procedures and endovascular interventions. The individual is expected to teach students, residents and fellows in didactic and clinical settings. A strong research focus is essential, that will lead to academic advancement. Evidence of excellence in teaching and research is required.

The successful candidate should ideally possess strong leadership skills. The candidate must be eligible for appointment at the rank of Assistant/Associate Professor at the University of Toronto and be eligible for certification with the Royal College of Physicians and Surgeons of Canada in Vascular Surgery or its equivalent, and must be eligible for licensure with the College of Physicians and Surgeons of Ontario.

Located in downtown Toronto, the Toronto General Hospital is part of University Health Network. The Division of Vascular Surgery is a core component of the Peter Munk Cardiac Center and provides comprehensive vascular care for both elective and emergency care for patients in Toronto and the surrounding region. Our practice includes advanced endovascular therapy for aortic aneurysms and peripheral arterial disease, as well as a full complement of open arterial surgery. We provide collaborative multidisciplinary care with our Interventional Radiology, Cardiac Surgery and medical colleagues. The successful candidate must have an area of academic focus to complement clinical activities and will be expected to have expertise in endovascular and open vascular interventions.

The Division of Vascular Surgery has hybrid interventional suites in the operating room, an ICAVL accredited vascular laboratory, clinic and research space. The Division is a principal component site for training of vascular residents at the University of Toronto in the Royal College of Physicians and Surgeons of Canada training program and the Vascular international fellowship program. In addition, the Toronto General Hospital Research Institute has extensive facilities and collaborators for all types of basic and clinical scientific investigations, including a new PET MR human imaging facility.

UHN is an academic institution affiliated with the University of Toronto and is recognized internationally for excellence in patient care, innovation, research and education. The Division of Vascular Surgery is comprised of six full-time clinical faculty members, within multiple UHN Programs, offering clinical care in the areas of Vascular Surgery.

Salary will be commensurate with qualifications and experience.

Interested candidates should submit a letter of interest detailing their clinical and academic interests, the names and addresses of three referees and *curriculum vitae* by October 15, 2017 by email to **Dr. Thomas Lindsay, Chief of Vascular Surgery at UHN**, care of Mrs. Amicie Davies at [amicie.davies@uhn.ca](mailto:amicie.davies@uhn.ca).

*The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.*
